2025 energy storage tender results

Which energy storage projects remained the mainstay of the quarter?

BESSremained the mainstay of energy storage projects over the quarter, with a small number of PHS projects promoted. In addition, there are several noteworthy highlights in different regions, including Malaysia with its first utility-scale BESS project with a capacity of 400 MWh.

When will Germany's innovation auction be held in 2025?

The following innovation auction will be held on 1 May 2025. As has been the case in many of Germany's recent solar PV auctions, the innovation tender ended up oversubscribed with 1.8GW of capacity.

How much will a hybrid power plant cost in 2025?

The auction in May 2023 yielded more bids but was still insufficient for more projects to go forward. Research carried out by The Centre for Solar Energy and Hydrogen Research Baden-Württemberg (ZSW) showed that average costs for a hybrid power generation plant to be taken into operation in 2025 were 10.40 ct/kWh,well above the adapted tariff.

Will energy storage reduce energy costs?

Efficient use of energy storage systems will also lower network costsas grid operators currently pay substantial curtailment fees to asset owners when the network is overloaded and cannot integrate more renewables. In 2022,8 TWh of renewable power, mainly wind, was curtailed in Germany alone.

2 ???· Nov 12, 2024. Markets. Tenders. Image: Anesco. The Greek Regulatory Authority for Energy, Waste, and Water (RAAEY) has launched the country's third auction for standalone, ...

View Tender Results ... RfS for Setting up of 2000 MW ISTS-connected Solar PV Power Projects with 1000 MW/4000 MWh Energy Storage Systems (ESS) in India under Tariff-based Competitive Bidding (SECI-ISTS-XVII) Tender Description / ?????? ?????

After the first round, which was for the 2025-2026 delivery period, head of analysis at consultancy Clean Horizon Corentin Baschet told Energy-Storage.news that the award of contracts to 130MW/540MWh of BESS, all new-build, was a sign that the country"s energy storage market was maturing.

Consultancy Clean Horizon contacted Energy-Storage.news to offer its take and breakdown of the results. Head analyst Corentin Baschet said the weighted average price was EUR29,500 (US\$35,814) / MW / year across the three tranches of awards and most of the awarded projects are expected to be batteries.

Ormat targets 500% growth in energy storage business by 2025. Energy storage still remains a relatively small contributor to Ormat"s total revenues: in its Q1 2023 results the company"s adjusted EBITDA from electricity sales, its biggest segment, was US\$120.8 million, while for energy storage it was just US\$0.8 million.

2025 energy storage tender results

The German government has opened a public consultation on new frameworks to procure energy resources, including long-duration energy storage (LDES). # Electricity # Strategy # storage # ...

Recent successful tenders have seen six energy storage projects provided support, ... on 17-18 June 2025, will be our fourth PV ModulelTech conference dedicated to the U.S. utility scale solar ...

The October 2023 iteration of the innovation auction was oversubscribed and awarded 408MW of solar-plus-storage capacity. At the same time, the government announced the results of its latest onshore wind auction, where over 2.3GW of capacity was awarded, which it said "set a new record". To read the full version of this story, visit PV Tech.

The Greek authorities have awarded 300 MW of new battery storage capacity in its second energy storage tender. The 11 winning projects range in size from 8.875 MW/17.75 MWh to 49.9 MW/100 MWh. ... Another round is planned for April 2025, with the goal of allocating an additional 300 MW. These tenders are part of the country"s 1 GW energy ...

According to the official results, the big winner was renewables developer and power retailer Capital Energy, as reported by multiple media outlets. Capital Energy, which also swept the auction round in January, this time collected 1,540 MW of wind and 8 MW of solar PV capacity under two different special purpose vehicles. The company confirmed ...

India launches 1.2 GW renewables, storage tender Solar Energy Corp. of India (SECI) has launched a tender to select developers for 1.2 GW of round-the-clock power from renewable energy projects backed with energy storage systems. Bidding closes on Dec. 16. ... of new Italian grid capacity for 2025 Italian electricity transmission system ...

The IESO is seeking up to 2,500MW of energy storage capacity as well as some natural gas to help meet projected shortfalls in electricity supply and last month announced 739MW of winning bids, comprising seven standalone energy storage projects.. The systems will provide resource adequacy to the Ontario grid when they go online by the end of 2025, and ...

4 ???· Accordingly, SECI hereby wishes to invite proposals for setting up of ISTS-connected Pilot Projects of Standalone Battery Energy Storage Systems (BESS), for an aggregate storage capacity of 1000 MWh (500 MW x 2 hrs). The final tender document will be issued by SECI on the Guidelines issued under Section 63 of the Electricity Act, 2003.

Gensol Engineering Ltd has won GUVNL''s 250 MW/ 500 MWh standalone BESS tender (Phase III). This marks its yet another win for the EPC developer in the battery storage space after securing 70 MW in GUVNL''s Phase II 250 MW/500 MWh standalone BESS tender in March this year. The company won the latest GUVNL BESS tender by quoting a ...

2025 energy storage tender results

However, with the results of an upcoming 2.4GWh Spanish standalone energy storage tender to be unveiled, in the coming months, Izcue expects the size of battery storage projects built to increase. If these tenders could help kickstart interest in energy storage in the country, these will not necessarily be the main driver for Spain to reach ...

The Gujarat Urja Vikas Nigam (GUVNL) has amended its Phase IV Standalone Battery Energy Storage Systems (BESS) tender by providing Viability Gap Funding (VGF) support... October 16, 2024 / Arjun Joshi / Energy Storage, Tenders & Auctions. NTPC Invites Bids for 100 MW/400 MWh Battery Energy Storage System.
