What is the best way to store books in a storage unit?

A: The best way to store books in a storage unit involves a combination of steps. This process includes determining how to pack books for long-term storage and determining the proper way to store books.

How to store books long-term?

Consider placing a sheet of bubble wrap or acid-free paper between each book in a box. In addition, materials left over from wrapping can be used to fill empty space in storage boxes. This technique will prevent your books from shifting around during transportation. The best way how to store books long-term is with climate-controlled storage.

How do I protect my books for long-term storage?

Protecting your dust jackets is only the first step in wrapping your books for long-term storage. Next, you will want to acquire the right materials to properly wrap your entire collection of books. Avoid using newspaper or plastic bags. Newspaper is acidic and plastic bags will trap moisture inside, threatening your precious library.

How do you store books in a climate-controlled storage unit?

Once you secure a climate-controlled storage unit, you will want to also purchase shelving or something else to store your boxes of books on. You never want to leave a box or container of valuable books directly on the floor of a storage unit. This contact with the floor can cause your books to be exposed to a plethora of threats.

Where should books be stored?

Leaving books anywhere in direct sunlight can damage the colours and leave the pages to deteriorate. If you're storing books at home, you want to make sure you're keeping them somewhere at a level temperature, away from sunlight. The British Library recommends around 16°C; - 19°C, if possible.

Should Books be stored in plastic containers?

A: When storing books in plastic containers, it is important to vigilantly eliminate any moisture or dampness from your library. If you find any books that have already started to mildew or mold, you will want to remove these from your collection.
