In 2024 August 8-10, Solar PV & Energy Storage World Expo 2024 is expected to reach an exhibition scale of 150,000 square meters, bringing together 2,000+ exhibitors and 200,000+ professional visitors, deeply linking upstream, midstream, and downstream industry chain resources, building a one-stop business procurement platform. We believe it will ...

ESS marks the achievement of Singapore's 200MWh energy storage target ahead of time. It will complement our efforts to maximise solar adoption by storing and delivering energy given the intermittent nature of solar power. The ESS will also enhance our power grid stability and resilience by managing mismatches between electricity demand

Energy storage has gone from being a peripheral player to a central actor in the renewable energy transition.
