

Chint Energy Storage Cabinet

Since entering the field of energy storage in 2016, Chint Power has consistently strived to bring every product to the forefront of the industry. The POWER BLOCK 2.0 liquid-cooled energy storage system certified by Intertek is currently the highest energy density liquid-cooled energy storage system globally, with a standard 20-foot container ...

CHINT's portable energy storage power supply uses automotive-grade lithium iron phosphate cells, offering high capacity and fast charging. It supports a 1200W pure sine wave output, has six interfaces that can support nine devices simultaneously, and has passed stringent safety and reliability tests to ensure worry-free electricity usage.

On January 18th, 2023, the Energy Storage Industry Annual Conference and the Commercial and Industrial Energy Storage Innovation Development Forum convened in Beijing. This significant event gathered industry leaders to deliberate on the recent developments in the energy storage sector, focusing on key topics like industry growth and safety measures.
