The MC4 connector plays a vital role in connecting the solar panels to the inverter and ensuring the efficient transfer of electricity. In this comprehensive guide, we will dive deep into the world of MC4 connectors and explore everything you need to know to choose a good MC4 connector for your solar energy system.

Hi all. Sorry if an obvious answer but most solar panels have a "male" MC4 output for positive and "female" for negative. The adapters that come with most power stations that convert MC4 to 8mm/XT60/etc. are set up with the opposite so the polarity is all good: "female" for positive and "male" for negative:
