

Companies that sell photovoltaic panel components

Who makes CertainTeed solar panels?

Located outside Philadelphia, this Saint-Gobain SA subsidiary is known for its industry-leading sustainable building materials. CertainTeed entered the U.S. solar market this year with two aesthetically pleasing all-black modules: the 400-440W Solstice Panel and the 70-watt Solstice Shingle. Both products come with a 25-year warranty.

Where can I buy Jinko Solar modules?

Jinko has delivered over 18 GW of solar modules to the US market, and have recently added stackable 7.6kW Eagle storage units to their Eagle solar module line. Customers can buy directly from Jinko or through one of dozens of distributors throughout the U.S.

Where are qcells solar panels made?

Qcells engineers their panels in Germany and produces them in the U.S. at a 5.1 GW capacity. While they lead the U.S. in residential and commercial sales, they also handle utility-scale panel and storage projects of 75 MW and above. Qcells leads the U.S. in market share for both commercial and residential markets at 35.1% and 35%, respectively.
