Manchester Tank & Equipment Pty Ltd manufactures compressed air tanks that comply with the rigorous safety and performance criteria of the Australian Standard AS1210 for pressure vessels. These tanks are utilized across a variety of industries, such as mining, metalworking, oil and gas, and agriculture.

In many cases, a single tank in the compressor room is sufficient. In larger systems, placing tanks at multiple points within your air system can be a low cost option to improve air system performance and plant operations overall. Wet tanks placed after the compressor and before the dryer reduce starts and cycling.

The Air Receiver Tanks act as accumulators in the event of sudden air consumption, and a storage medium between the compressor and the consumption system. They can also be used to provide large quantities of compressed air for supplying fast pulsing drives. We provide a selection of air receiver tanks in 5L, 10L, 20L and 38L.

AIR COMPRESSOR AND AIR RECEIVER TANK SUPPLIER. GWT Enterprise Pte Ltd is ceccato authorised distributor. We are a trusted air compressor and air receiver tank supplier in Singapore with experience in the field of compressed air since 1982. Apart from offering high quality products and spare parts, we also offer a range of services from ...

# Compressed air storage tank supplier

Namerah air compressor tank is durable and its appearance is made of high-quality cold-rolled steel plate cover. There are two types: vertical air compressor tank and horizontal air compressor tank. Skip to content. Toggle Navigation (966) 11-4982020; Email Us;

Dry Storage Tanks: Compressed air that has already been dried and filtered is kept in "dry" storage tanks situated after the air dryers. The compressed air does not have to circulate through the tank for dry storage. ...
