

Energy storage company job title table

What can you do with a job in energy storage?

Join us in transforming the way we power our world. With a job in energy storage, you can help us accelerate the transition to a clean and reliable energy future by surpassing the technological, regulatory and commercial barriers that stand in the way.

What makes field a great energy storage company?

The energy storage industry is no exception. At Field, they are the glue that holds us together - whether that's by bringing new talent into the business, negotiating contracts or ensuring we have a strong balance sheet. They're absolutely essential to the Field business, enabling us to do the work we do.

What makes the energy storage industry so interesting?

The energy storage industry is still fairly young compared to others like wind or solar. This means it's rapidly growing, changing and innovating (part of what makes working in the industry so interesting).

Why do energy storage companies need a strong finance team?

Regardless of which sector they're working in, businesses need strong finance, legal and people teams. The energy storage industry is no exception. At Field, they are the glue that holds us together - whether that's by bringing new talent into the business, negotiating contracts or ensuring we have a strong balance sheet.

Northvolt intends to use its vertical European supply chain to differentiate itself in a "fiercely competitive" energy storage market, executives said. Energy-Storage.news caught up with the European lithium-ion gigafactory firm to discuss its energy storage system (ESS) manufacturing facility in Gdansk, Poland, and its work with Fluence ...

Although a large market, Brazil has been relatively quiet for battery energy storage announcements despite being a relatively early mover in trialling various different battery chemistries, as Energy-Storage.news reported back in 2018. Two years later, BloombergNEF reported that mining giant Vale would deploy a 5MW/10MWh system, the country's ...
