

Fengye battery fish farming equipment

Depending on the type of fish you are farming and the size of your operation, you will need to select equipment that is best suited for your particular situation. Fish Agitators & Pond Aerators Aerators are an essential piece of equipment for any catfish farm, as they help keep the water oxygenated and circulating.

Recirculating farms vary greatly in size and purpose - a personal set-up may require only a few square feet for a rain barrel, tank and rafts to raise enough fish and vegetables for a family, while a larger commercial farm may occupy tens of thousands of square feet - ideal for growing fish and produce near markets.

We supply a selection of aquaculture equipment to help with your Aeration & Fish farming. Cleaning products, equipment pumps, discharge screens and more. Skip to content.
