

# Haigang power energy storage tender announcement

The auction will offer investment and operational support for four-hour independent energy storage units, with the tendered capacity total set at 300 MW. Energy-storage projects intended for installation at the country's former lignite regions of western Macedonia and Megalopolis - eastern Macedonia will also be added - will be eligible.

The BG-RRP-4.032 tender will support new solar and/or wind power projects with co-located energy storage facilities. A budget of BGN 107.57 million (\$60 million) has been allocated to aid the construction of at least 200 MW wind and solar capacity along with 100 MW of storage. Projects can have an installed capacity of 200 kW to 2 MW.

"The construction of storage facilities is key to the efficient balancing and management of the power system," said energy minister Vladimir Malinov. "The successful implementation of this procedure will guarantee the security and stability of the power system. An opportunity to integrate the electricity produced from renewable sources on the market in the ...
