

How to sell energy storage cabins in cape verde

Who is Cape Verde property?

Cape Verde Property was the first UK based real estate agency specialising in marketing properties and land investments across the beautiful Cape Verde Islands. With the largest portfolio of properties available across the islands, Cape Verde Property are the premier Cape Verde specialists.

Should you buy a property in Cape Verde?

The properties for sale on Cape Verde will initially act as perfect holiday homes and every indication is that they will offer exceptional buy-to-let income as tourism on the islands of Cape Verde matures boosted by the opening of its first major airport on Santiago Island in Summer 2005.

Can You remortgage a house in Cape Verde?

Mortgages are generally only available on built property, not off-plan. To get round this many buyers remortgage their UK property, use their savings, or arrange special stage payment loans. Search thousands of homes, apartments and other property for sale in Cape Verde.

Is Cape Verde a good holiday home?

Cape Verde has emerged in recent years as an ideal choice for a year-round beach-side holiday home that combines the best bits of the Caribbean and Canaries but avoids some of their downsides. The islands come in a variety of styles, and prices.

What is the payment schedule for buying an off-plan property in Cape Verde?

The payment schedule for buying an off-plan property in Cape Verde is very different from a more established market such as Spain which typically offers a 30% deposit and 70% payment on completion. This can almost always be covered by a standard mortgage, usually offered by the developer itself.

What is the energy sector in Cape Verde?

Cape Verde energy sector is strongly characterized by consumption of fossil fuels (derived oil-primary imported oil), biomass (wood) and use of renewable energy particularly wind and solar power.

In 2012 Cape Verde had an installed electricity generation capacity of around 300 MW, of which about 24% from wind power plants and 3% from photovoltaic stations. While solar power has an enormous potential as a source of renewable energy, natural conditions in Cape Verde are one of the best in the world for the production on wind energy.
