

How to tell whether GCL photovoltaic panels are real or fake

How to tell if a solar panel is fake?

If you notice this fault on a solar panel, consider its quality and alignment are important. Each solar panel comes with a tempered glass panel. This glass panel protects the solar panel surface from scratch. You will notice some scratch on a fake solar panel because of this counterfeit material.

Can a fake solar panel damage your home?

On the contrary, a fake solar panel will damage quickly because of its substandard materials. An original solar panel can perform in any weather conditions including rain, winter, and storm. But, a fake solar panel can not stand in a hazardous situation.

What are counterfeit solar panels?

Like other electrical products and devices, counterfeit solar panels are also available in the market. Fake solar panels represent the panels that come with faulty design and don't have power production capacity. In general, solar panels are made with silicon, and the standard manufacturing process ensures the quality of the panels.

How to choose an original solar panel?

You have to consider the color to pick an original solar panel. When purchasing a solar panel, you must have to calculate the energy production rate according to its size. A perfect combination ensures the original panel. An original solar panel must have an efficiency of 17% to 19%.

What are the disadvantages of fake solar panels?

Fake solar panels naturally come with substandard materials, and their outer protective coating is not so stable. It will be removed within a short time. The body of the panel can present the other visible defect easily. The alignment of a fake solar panel is not perfect. The connecting cells are misplaced or not connected perfectly.

Are solar panels a scam?

This isn't so much the sign of a scam as it is a word of caution and advice: solar installers should give you a lot of information when providing a quote, including things like model numbers of the solar panels they plan to use. For example, some quotes we've seen just say things like "Qcells panels" or "REC panels".
