Zinc ion batteries (ZIBs) are promising for large-scale energy storage because the Zn metal features high theoretical capacity (820 mAh g⁻¹), favorable redox potential (-0.76 V SHE), and abundant resources [1], [2]. For the aqueous electrolytes, H₂O enables ZIBs with non-flammability, high ionic conductivity, and large power density [3]. However, the H₂O-induced ...

Lin leads the Membrane and Energy Laboratory, with expertise in inorganic membrane science, adsorption, separation technologies, catalysis, fuel cells and energy storage, and carbon dioxide capture. Lin earned his bachelor's degree in chemical engineering from Zhejiang University in China in 1982, followed by his master's degree (1985) and ...

for energy storage as fuel. Yuzhu Chen, Meng Lin linm@sustech.cn Highlights A photo-thermo-electrochemical cell is proposed for fuel and electricity production Electricity and hydrogen can be produced on demand in a single device The ...

Electrostatic capacitors can enable ultrafast energy storage and release, but advances in energy density and efficiency need to be made. Here, by doping equimolar Zr, Hf and Sn into Bi₄Ti₃O₁₂ thin ...

The conversion of solar energy into useful forms is an important sector for the reduction of carbon emissions and for boosting the share of renewable energy in the energy market. Solar thermal technologies featured high conversion efficiency due to broadband absorption and low cost, which is thanks to their cheap thermal storage pathways.

DOI: 10.1016/J.JPOWSOUR.2018.08.009 Corpus ID: 105753845; An integrated concentrated solar fuel generator utilizing a tubular solid oxide electrolysis cell as solar absorber @article{Lin2018AnIC, title={An integrated concentrated solar fuel generator utilizing a tubular solid oxide electrolysis cell as solar absorber}, author={Meng Lin and Sophia Haussener}, ...

Angewandte Chemie International Edition, 2024, 63, ... Energy Storage Materials, 2022, 51, ... Shang Liu#, Bao Qin, Xuan Zhang, Yexin Zhou, Funian Mo, Hao Lei, Lin Zeng, Meng Lin*, Zheng Zhong*, Jie Yu*, Yan

Huang*. Automatic snorkeling electronic equipment enabled by self-breathing flexible aqueous aluminum-air battery.

Key Technologies and Applications of Shared Energy Storage SONG Meng 1 (), LIN Gujing 1, MENG Jing 1, GAO Ciwei 1, CHEN Tao 1, XIA Shiwei 2, BAN Mingfei 3 1. ... As a typical application of the sharing economy in the field of energy storage, shared energy storage (SES) can maximize the utilization of resources by separating the "ownership ...

The ESS products are certified in line with CE, IEC62933, UL9540, UL9540A, NFPA855 etc. Cubenergy bankability reports facilitate developers to have the ESS projects well funded and insured. ... Energy Storage Summit USA 2025 will provide the perfect platform to connect key industry players across the entire value chain of this buzzing US market ...

Meng Lin Southern University of Science and Technology Verified email at sustech .cn Zhenhua Chai Huazhong University of Science and Technology Verified email at hust .cn Le Shi ?? Professor of Electrical Engineering, Xi'an Jiaotong University Verified email ...

Construction materials account for more than 10% of CO₂ global emissions, highlighting the surging need for low-carbon building materials. Introducing carbon-sequestering fillers in building materials with low-emission processes increases the possibility of decreasing the environmental impact of building materials. Deconvoluting the effects of chemical compositions of...

Grid Systems and Components Director in the Office of Electricity at U.S. Department of Energy (DOE) & Co-Lead of the DOE Energy Storage Grand Challenge and Long Duration Storage Earthshot Lady Idos Senior Advisor for Justice, Equity, Diversity, Belonging, and Inclusion at the U.S. Department of Energy Office of Economic Impact and Diversity

The problem of balancing the state-of-charge (SoC) of the networked battery units in a BESS while meeting the total charging/discharging power requirement is formulated and solved as a distributed control problem. The control of battery energy storage systems (BESSs) plays an important role in the management of microgrids. In this paper, the problem of ...
