Which projects have been submitted to the Italian Ministry of energy?

The 111MW project in Lombardia and the 97MW project in Puglia have been submitted to the Italian Ministry of Energy for approval. The 187MW project in Piemonte will be submitted for approval later this year.

Our goal is to increase our number of locations from 34 to 60 by the end of 2024. We plan to achieve this by establishing franchise setups in collaboration with established companies such as: Independent Car Rental Companies; Car Dealerships; ...

"In 2020, storage was not on the radar of many players but it is now moving mainstream in Italy as it has done in the UK, Germany and elsewhere, because of similar factors to those countries," says Kilian Leykam, Investment Manager Battery Storage for Aquila Clean Energy, which announced plans to develop battery storage projects in Italy in ...

GE is known for its involvement in various energy storage projects, particularly when it comes to grid-scale battery storage solutions. It continues to be at the forefront of developing and deploying advanced energy storage technology and putting forward contributions to the energy storage space that underscore its leadership and influence. 8. AES

The V2G process is regarded as promising but not absolutely essential. However, it could transform the energy industry in the future. No one has yet explained how a power grid that can no longer rely on nuclear or coal-fired power stations will be able to maintain its stability when millions of additional electricity consumers appear on roads all over the world.

The agreement, signed on 28th June 2023, secures Eku Energy exclusivity over 1GW of battery storage projects in Italy. As part of the agreement, Eku Energy is already funding projects with ...
