

The Australian Energy Regulator (AER) has said that a delay in new renewable energy and energy storage capacity coming online on the National Electricity Market (NEM) in 2023-24 means the grid ...

The 430 MWh Energy Storage Contract Signing between Enlight and Sungrow. The Israeli government introduced last year a goal of generating 30% of its electricity needs via renewables by 2030, with ...

Blattner is a diversified energy storage contractor and provides complete engineering, procurement and construction (EPC) services for utility-scale storage projects. We've built stand-alone energy storage systems, but also provide added value to our clients by offering integrated projects, like an energy storage solution within a wind energy ...

At Modo Energy, we often get asked for companies who can deliver Engineering, Procurement, and Construction (EPC) for your Battery Energy Storage assets. An EPC plays a critical role in the design and construction of new battery energy storage projects. We're keen to keep an up-to-date and free-to-access list for all market participants. Anesco

The UK's energy storage market has grown rapidly in the past few years, but it needs to go much further in terms of scale and duration of the systems deployed. ... when we move away from short-duration and look at energy storage in the context of large-scale and long-duration electricity storage (LLES). Currently energy storage, in the ...

The NEM interconnects power markets in the Australian states of Victoria, Queensland, New South Wales (NSW), South Australia and Tasmania. Drivers of the volatility being seen are outages at coal power plants, the impacts of natural disasters on transmission infrastructure and the increasing penetration of variable renewable energy on the grid, mainly ...

This newly signed agreement demonstrates the industry collaborations across the Asia- Pacific regions to support grid diversity and increasing renewable electricity. Empowering both companies to advance their sustainability priorities, tackle ...

RWE Clean Energy is the second largest operator of solar and third-largest in renewables overall in the US. Image: RWE Clean Energy. The industry still has a lot of work to do on urban project development and navigating local permitting challenges, a senior executive of US developer-IPP RWE Clean Energy told Energy-Storage.news.. RWE Clean Energy is the ...

The 4-hour duration system would be built at the site of NTPC Ramagundam, a 2,600MW coal-fired power plant in Telangana, southern India. According to bidding documents, the scope of work includes design,

engineering, supply, packing and forwarding, transportation, storage, installation and commissioning of the large-scale battery storage system.. The ...

EDF has secured a contract to lead the development of a 240MWp floating solar project in Laos that will be co-located with a 1.08GW hydropower plant. ... Following an EPC bidding process that is ...

Aerial view of the 336MW BESS in Namwon, by HD Hyundai Electric. Image: HD Hyundai Electric via LinkedIn. KEPCO, South Korea's biggest electric utility, has welcomed the start of commercial operations at a portfolio of ...

The project will create a sustainable electricity supply for the development of Lao capital Vientiane and increase the capacity of Laos' electricity grid," said Yu Jun, general manager of the China ...

Image: Harmony Energy. The closure of UK battery storage specialist EPC and independent connection provider (ICP) firm G2 Energy has been confirmed by Companies House, with a senior manager describing "unsympathetic clients" in comments given to Energy-Storage.news and that the bulk of the team is joining outsourcing giant Mitie.

In terms of renewables construction work, Mytilineos signed new third-party EPC deals for 878MW of solar and energy storage projects last year, located countries including Uzbekistan, with its ...

As of March this year, around 219MWh of BESS was online across the country, mostly paired with solar PV, but with India's government targeting 500GW of new non-fossil fuel energy by 2030, including 450GW from solar PV and wind, the need for storage is acute, while beyond the 2030 timeframe, the national Central Electricity Authority (CEA) has ...

Michigan's governor Gretchen Whitmer signed the state's climate legislation including a 2,500MW energy storage target into law last year. Image: Gretchen Whitmer via X/Twitter. Utility DTE Energy has launched a request for proposals (RFP), seeking approximately 120MW of standalone energy storage projects in its Michigan, US, service area.
