

Ma makes home solar power

Solar photovoltaic (PV) panels generate renewable electricity. As of early 2021 over 470 homeowners in Acton had installed rooftop PV systems averaging about 8 kW. Panel prices have dramatically decreased over the past few years and financial incentives have remained high--a combination that makes solar an excellent investment for many roofs.

If your intention is to stay in your home beyond the solar payback period, choosing solar panels is a good option in New Bedford. Having a 5 kW solar system in New Bedford, MA can potentially save you roughly \$34,524.4 over a span of 20 years, with an average break even point of 6 years. The cost of not having solar panels in New Bedford, MA
