Welcome To Marshalls Energy Company. The Marshalls Energy Company is a semi-autonomous utility company responsible for the generation, distribution and sale of electricity on a number of islands and atolls within the Republic of the Marshall Islands.

Page | 6 Foreword I am pleased to present this National Energy Policy and Action Plan that will guide the development of the country's energy sector in the next five to ten years. The policy and action plan is an output of the review of the National Energy Policy and Energy Action Plan 2009 and is aligned to the Strategic Development Plan Framework 2003-2018: Vision 2018.

In December 2021, the Asian Development Bank (ADB) and the Government of the Marshall Islands (RMI) signed agreements for a \$7 million grant to aid in the development of renewable energy in the Marshall Islands. The grant comes after an initial \$12.7 million was approved in 2018 as a part of the Energy Security Project.

Marshall Islands: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
