With the top-ranking IP68 weatherproof rating and unrivaled 23% solar conversion, it secures a limitless power supply for protection against power failure, off-grid self-sustaining, outdoor activities, and more.

If your average gas generator costs about \$1000 a similar output solar generator is going to cost you somewhere close to \$2000 - and maybe even more. Solar generators have lower operating costs in the long haul to offset that initial expense, but it still a pretty big hit to your bank account right away.

For solar charging, you need a special solar adapter cable that some manufacturers include in the solar generator kit. An average solar charging time is around 5 hours, but large generators like the Renogy Lycan 5000 and ...
