North America is currently leading the world for utility-scale energy storage deployments, but could be overtaken by the second-largest market, the Asia-Pacific region, as early as 2023, according to forecasting and analysis by Guidehouse Insights.

Six countries have committed to achieving net zero goals in the future, and renewable energy will accelerate construction. In the meantime, you can learn about the world's energy storage industry by reading top 10 energy storage battery manufacturers in the world. Let's take a look at the development of energy storage markets in Southeast Asia.

Lithium-ion utility-scale battery energy storage project in South Korea. Image: Kokam. Asia-Pacific will overtake North America as the biggest utility-scale energy storage (UES) market by annual installed gigawatts (GW) by 2024-2025, according to a new report by Guidehouse Insights, one to two years later than in the firm's previous forecasts.

Shenzhen Juntengfa Welding Equipment Co.; Ltd was founded in 1995,manufacturing the resistance welder and automatic welding machines. Our products include the full series resistance welder and various arc welding and automatic welding machines like pedal AC spot welder,air-operated AC spot welder, capacitor discharge spot welder,electric resistance seam welder, ...

Date: May 15 - 17, 2024 Future Energy Asia is the region's leading energy transition event, providing a business platform that brings together Asia's natural gas, LNG, renewable and power generation industries to identify solutions and strategies to foster a secure, affordable and low-carbon energy mix for the continent.
