

Do solar panels have a Smart Export Guarantee (SEG)?

The good news for solar panel owners is that large energy companies are obliged to pay for the excess energy that is exported, under the Smart Export Guarantee (SEG) scheme. What is the Smart Export Guarantee?

Which SEG packages are available for solar exporters?

E.ON Next has two SEG packages for solar exporters to choose from: Next Export and Next Export Exclusive. The former is open to all solar generators (with a system max capacity of 5MW) and the latter which is only available to customers who purchased their solar installation from E.ON on or after January 1st, 2020.

Are export tariffs a good idea for solar PV?

For homes with solar photovoltaic (PV) panels, export tariffs like the SEG are a great way to bolster your energy bill savings. In this article, we'll explore how the SEG works, the benefits for solar PV system owners, and how it's shaping greener living in the UK.

How much do solar panels cost to export?

Find out which energy companies have the best rates. The amount you can get paid for exporting energy from your solar panels varies from a paltry 1p to as much as 40p per kWh. That means that if you've got solar panels, choosing the best export tariff could earn you hundreds of pounds extra in payments every year.

What is a solar export tariff?

A solar export tariff pays you for all the electricity you send to the grid. At first, solar export tariffs were created in response to the government launching the Smart Export Guarantee (SEG) in 2020.

Can solar energy be exported back into the National Grid?

But that excess energy can be used elsewhere, by exporting it back into the National Grid, which then distributes it to wherever it is needed. The good news for solar panel owners is that large energy companies are obliged to pay for the excess energy that is exported, under the Smart Export Guarantee (SEG) scheme.

Easy PV automatically generates a full kit list with everything you'll need for the PV installation, down to the last roof hook and screw. Trade purchasing Connect your Midsummer account to see your trade pricing, live product availability and order your entire system with one-stop purchase.

The best no-strings export tariff available to non-customers pays 12p per kWh; See our table of available solar export tariffs below. Many solar panel owners don't use all of the electricity their panels generate, especially if

...

If there was an option to rate HIES as 10 star, then I would. I cannot rate this company high enough to get things sorted. Tracy D from HIES was an absolute treasure in helping me deal with a very difficult company after we had an Air-Heat pump system installed incorreccted back in 2017.

The power rating of the solar panels, measured in watts (W), is also an important indicator of quality. For instance, a 430W solar panel will be able to generate more electricity than a 330W solar panel in the same ...
