2.The 801A adopts the latest energy-gathered pulse welding technology, it has a great welding power, the welding spot is nice and elegant, ensuring you a reliable welding effect. 3.The maximum welding power of the machine can be up to 10.6 KW meeting the needs for large-batteries welding.

Product Description. Product Features. The newly designed U.S. Solid USS-BSW00005 high-frequency inversion battery spot welder equips with the two super capacitors for energy storage and power supply for pulse welding. Unlike traditional AC transformer spot welders, it is more portable and it does not cause any interference to the electric circuit, eliminating tripping ...

China leading provider of Spot Welding Machines and Energy Storage Welder, Shanghai Trintfar Intelligent Equipment Co., Ltd. is Energy Storage Welder factory. English ... Customized Spot Welding Machine Pneumatic Condenser Intelligent Resistance Spot Welder Compressor Door Locks Frequency Inverter Automatic Energy Storage Welding Machinery.

The pneumatic spot welding head is designed with buffering technology. It is convenient to adjust the pressure of the two welding needles and the speed of resetting and pressing downward the pneumatic welding heads separately. The gantry frame is made of 304 stainless steel. It is hard, steady, and durable.

Heltec HT-SW33 series intelligent pneumatic energy storage welding machine is specially designed for welding between iron nickel materials and stainless steel materials, suitable for ...

Description. This projection welding machine are vertical motion type pressurizing mechanisms. Due to the compressibility of the air, the follow-up of the pneumatic welder is superior to that of the hydraulic welder, and the pneumatic system can be used for the vertical motion welder of all powers, so the projection welding machine mostly uses a pneumatic system.

?? A-330H Intelligent Pneumatic Energy Storage Pulse Welding Machine Features: 1. Microcomputer control, clear LED display screen 2.The pneumatic spot welding head is designed with buffering technology is convenient to adjust the pressure of the two welding needles and the speed of resetting and pressing down the pneumatic welding heads ...
