The features of our plate compactor range include: Foldable handle allows for easy transportation and storage; Centrally-mounted, fully-enclosed exciter for an even spread of force over the whole base plate; Heavy-duty shock mounts reduce vibration to the upper engine and handle; Open design reduces dirt build-up; Horse power ranging from 5HP ...

Das geniale Slot Design bietet die Möglichkeit, zusätzlich Netzteile, Effekte, Buffer, etc. mit unserem bewährten QuickMount-System, Kabelbindern oder Klettband sicher zu befestigen und gewährleistet saubere Kabelführungen. Durch einen einfachen Dreh an den Sicherungsriegeln kann die Base Plate blitzschnell geöffnet werden.

Not as advertised. The base plate is not 6'x6'; but instead is 5'x5'. Also mine came painted blue, not a big deal but I wanted it for an art project that needed the metallic finish shown on the product photo. Now I need to paint it of another color s made in China. If you are using this for a scaffold then the product will work.

We manufacture custom steel compressor base plates, and pump bases used in the power generation industry, petrochemical industry, and industrial manufacturing markets. These sturdy bases are typically installed in oil fields, industrial facilities, drilling platforms, FPSO, rigs, power plants, and more, to provide a solid foundation for ...
