6. Wheel well boxes. Wheel well boxes are a kind of storage box that is tall and narrow. They are ideally mounted on the bed of the floor. 7. Fifth-wheel boxes. These boxes are specially designed in a way that they aren't a hindrance whenever a trailer requires to be attached. And yes, they are also designed to be placed on the truck bed floor.

This protects both the equipment and personnel. Given the volatility of electricity and potential disasters from improper handling or storage, metal enclosures also ensure compliance with relevant safety regulations and standards. This is crucial for the longevity and performance of electrical equipment and maintaining workplace safety.
