

# Ranking of new energy storage related funds

Which energy storage stocks are a good investment?

Albemarle is the top holding, followed by Tesla, so if you can't decide from the previous stocks, this fund is a good one-stop investment to play the pending energy storage boom. With more than \$1 billion under management and about 60 components, this First Trust fund is another interesting and diversified way to play energy storage.

Is the Invesco solar ETF a good investment?

The Invesco Solar ETF ranks well on ESG, with an A rating from MSCI. Overall, it ranks in the 45th percentile of global ETFs on ESG factors. The fund charges a reasonable expense ratio of 0.66%. The Invesco WilderHill Clean Energy ETF concentrates on companies listed on U.S. stock exchanges and engaged in advancing clean energy and conservation.

What are some interesting energy storage ETFs?

Another interesting energy storage ETF is GRID, which is focused on alternative energy infrastructure companies such as power management company Eaton Corp. (ETN), industrial conglomerate Johnson Controls International PLC (JCI), and electronics and automation pioneer Abb Ltd. (ABB).

Should you invest in a diversified energy ETF?

An equal-weighted energy ETF, such as the Invesco S&P 500 Equal Weight Energy ETF (RYE) at #7, might be a better diversified option. The SPDR S&P Oil & Gas Exploration & Production ETF (XOP) is the highest ranking subsector fund at #3.

Should you invest in energy ETFs?

Energy ETFs offer access to energy companies without having to pick and choose stocks yourself. If you want to be a little more selective with your investments, you can look for energy ETFs that suit your personal portfolio. For instance, if you're interested in sustainable investing, there are clean energy ETFs that focus on renewable energy.

What is the iShares energy storage & materials ETF?

The iShares Energy Storage & Materials ETF (the "Fund") seeks to track the investment results of an index composed of U.S. and non-U.S. companies involved in energy storage solutions aiming to support the transition to a low-carbon economy, including hydrogen, fuel cells and batteries.
