Fixed solar panels keep your gear charged so you can enjoy your adventure without interruptions. ... install your fixed solar panels and connect them to a charge controller.

@sunshine I actually tried putting the panels behind the window. The voltage is high enough for the charge controller, but I ended up with maybe 15W total out of the 3 100W panels (between the glass and partial shading etc). I was trying to see if I could get a bit more power from the panels in an emergency (as long as I can do it safely). Thanks!
