

Solar panel support tripod

Our Solar Flat Roof Mounting Systems Adjustable Tripod has so many benefits. It can support 10-15deg, 15-30deg, 30-45deg Tilt angle. And the Solar Flat Roof Mounting Systems Adjustable Tripod can be used for framed, unframed solar Module. The Adjustable Tripod is made of Anodized aluminum 6005 T5, stainless steel 304,410 and warranty 10 years.

The system can be made to fit any solar panel specification or size, thus avoiding the common problem of overhanging solar panels with existing ground-mounted solar panel systems. With solar panels getting larger and thinner, badly fitted panels, overhanging panels, and non-secure panels can lead to damages and insurance not covering the costs.

Solar Panel Tripod is a good solution for flat roof construction, with a triangular tilt angle that can range from 15 to 60 degrees. It is suitable for framed or frameless solar modules. Help project installers save time and effort and contractors save a lot of money by using our pre-assembled mounting components: clamps, brackets, rails, and stainless steel expansion bolts.
