Solar panel system installation

To these roof anchor points are attached the solar panel mounting system. The mounting system supports the foundation of your solar panels, keeping them in place at the optimal angle to receive sunlight. Install panels. Without fastening them at first, the installers will place the solar panels onto the mounting system.

A certified solar panel installer has undergone training and passed assessments that prove their competence in installing solar panels safely and effectively. Choosing a certified installer not only gives you peace of mind, but it also ensures that you comply with Ireland"s regulations and standards.

Solar panels could reduce your bills and even earn money by generating electricity you can sell back to your energy company. But the average solar panel system of 3.5kWp will cost around £7,000 to install, according to estimates from the Energy Saving Trust.

The required wattage by Solar Panels System = 1480 Wh x 1.3 ... (1.3 is the factor used for energy lost in the system) = 1924 Wh/day. Finding the Size and No. of Solar Panels. W Peak Capacity of Solar Panel = 1924 Wh /3.2 = 601.25 W Peak. Required No of Solar Panels = 601.25 / 120W. No of Solar Panels = 5 Solar Panel Modules
