Does Southern Power own a solar power plant?

Southern Power currently owns or operates more than 2,395 megawatts of solar generating capacity at 28 facilities operating in California, Georgia, Nevada, New Mexico, North Carolina and Texas. Twenty-six of these facilities are co-owned by third parties, with Southern Power having the majority ownership.

Where is the solar power plant located?

The cutting-edge solar and battery facility is located in the sun-rich Northern Cape province, spanning 879 hectares and stretching 10 kilometers from north to south. With a combined solar capacity of 540 MW, the facility's colossal solar battery system can contribute up to 225 MW of power to the grid.

Where is the largest solar power plant in the southeast?

A 200-MW solar power plant is being planned at a 2,000-acre site near Warner Robins, Georgia, a project that at present would be the largest standalone solar facility in the U.S. Southeast. First Solar, a Tempe, Arizona-based global provider of photovoltaic (PV) systems, announced the project on February 21.

Who is southern solar systems?

Founded in 2007, Southern Solar Systems operates throughout the Southeast. Birmingham-based Vulcan Solar Power also offers free consultations and site surveys, along with a free system design and quote. The company has built commercial and residential solar systems across the Southeast.

Does Southern Company have a nuclear power plant?

One fantastic source is nuclear energy. That's where Southern Company comes in, as its Vogtle Unit 3 is one of three new nuclear power capacity additions since the 1990s in the United States. The other is Vogtle Unit 4, which entered production on April 29 of this year.

Who is southern power?

Southern Power builds the future of energy by investing in clean energy solutions for the customers we serve. A subsidiary of Southern Company, we are a leading U.S. wholesale energy provider meeting the electricity needs of municipalities, electric cooperatives, investor-owned utilities, and commercial and industrial customers.
