

# Tax rate for selling photovoltaic support equipment

Are solar panels VAT free?

Whether you're buying a standalone solar battery or getting a battery installed with a solar panel system, you'll benefit from the 0% VAT rate. This rule changed in February 2024 to include standalone storage batteries at the 0% VAT, regardless of whether you're getting solar panels at the same time. Is there VAT on solar panel income?

What is 0% VAT on solar panels?

The 0% VAT on solar panels in the UK is a temporary measure, set to last until 31 March 2027. From 1 April 2027 onwards, the VAT rate on solar panel supplies will go back to the reduced rate of 5%, in line with the UK government's financial and renewable energy goals. Does 0% VAT apply to solar batteries?

Are solar panels tax deductible in the UK?

According to the UK government's list of Energy Saving Measures (ESMs), most solar photovoltaic (PV) panels installed on residential properties in Scotland, England and Wales (plus Northern Ireland, as of 1 May 2023) are exempt from VAT, meaning there's no VAT included in the purchase and installation costs.

Are solar and energy storage installations subject to VAT?

All solar and energy storage installations, including maintenance to existing sites, should be subject to 0% VAT. This should include residential energy storage when installed as a standalone measure.

Do solar panels save tax?

Your tax saving by investing in solar is £22,800.00! As a rough rule of thumb, the tax saving is roughly equivalent to 1 year of benefits of your solar array. How does the 50% tax break for solar panels work? To demonstrate this in more detail: Investing in solar would provide you with a capital allowance to reduce your tax bill:

Are solar thermal and PV systems subject to VAT?

Solar thermal and PV systems are included on the list of ESMs. Their supply and installation are now subject to 0% VAT in Great Britain. In Northern Ireland, the previous rules remain in force. This means that solar is subject to 20% VAT unless a reduced rate of 5% applies.

For businesses with positive taxable income, the deduction will reduce its tax liability. For example, a renewable energy investment of R1 million would qualify for deduction of R1.25 million. Using the current corporate tax rate, this deduction could reduce the corporate tax liability of a company by R337 500 in the first year of operation.

For a detailed discussion of the solar tax credit, see the Guide on the Solar Energy Tax Credit Provided under
