

The global energy system has a long way to go to meet international climate goals, and significant investment in renewable energy is required to accelerate the energy transition (IRENA, 2016, 2019).

Hermann Simon, "Hidden Champions--Speerspitze der deutschen Wirtschaft," Zeitschrift für Betriebswirtschaft 60 (9/1990), pp. 875-890. Google Scholar Hermann Simon, Hidden Champions--Lessons from 500 of the World's Best Unknown Companies, Cambridge, MA: Harvard Business School Press 1996. Google Scholar

But hardly anyone knows much about mid-sized world market leaders, the "hidden champions" that spearhead the economy. This anonymity stands in blatant contrast to their astonishing successes. In his book, Hidden Champions of the 21st Century: The Success Strategies of Unknown World Market Leaders, Hermann Simon examines the strategies of ...

Research on hidden champions studies their (1) internationalization strategies, (2) R&D and innovation strategies, the (3) worldwide and regional geographic distribution of hidden champions and ...

Hidden champions are relatively small but highly successful companies that are concealed behind a curtain of inconspicuousness, invisibility, and sometimes secrecy. The term was coined by Hermann Simon. He first used the term in 1990 as a title of a publication in a scientific German management journal, describing the small, highly specialized world-market leaders in ...

3 ???; "The future of clean energy depends on the efficiency of every component, and pumps are no exception. They are essential to scaling up renewable energy solutions and achieving Europe's net-zero carbon targets." A Hidden Hero in Every Household. Beyond industry and public services, pumps impact our daily lives in more personal ways.

Capacity value of energy limited resource should not be overly discounted. One-hour energy storage in ERCOT provides 46% capacity value, while a four-hour storage provides 99% capacity value. Recognizing
