Should Transnistria be reintegrated?

Most of Transnistria was not part of historic Bessarabia, which makes up the bulk of modern Moldova, so most Moldovans have little emotional attachment to the strip. Surveys also suggest it would be hard to persuade them to pay for Transnistria's reintegration, though that is Moldova's official aim. The war next door has kick-started the process.

Should Transnistria be reintegrated into Moldova?

Reintegrating Transnistria into Moldovawould mean importing a largely pro-Russian voting bloc into the politics of a country that has annoyed Mr Putin by being a candidate to join the EU. "Above all we need to maintain stability," says a Moldovan security man.

Can ice storage systems be optimized for seasonal energy storage?

While the optimization of the design and operation of energy systems with seasonal thermal energy storage has been the focus of several recent research efforts,there is a clear gap in the literatureon the optimization of systems employing ice storage systems,particularly for seasonal energy storage purposes.

What is ice storage?

The expression "ice storage" commonly defines thermal storageemploying the enthalpy difference of water during its phase change from liquid to solid . The high latent heat of fusion of water results in a higher energy density for this type of storage compared to water-based sensible storage,leading to smaller volumes.

Nimi Transnistria tulee alueen sijainnista Dnestrjoen (moldovaksi Nistru) takana, [2] siis Moldovasta katsoen. Virallisesti Moldovan hallitus käyttää alueesta nimeä Dnestrin vasemman hallintoalueyksikkö (moldovaksi Unit?ile Administrativ-Teritoriale din Stînga Nistrului [4], lyh. Stînga Nistrului).. Itse alueella käytetään virallisia nimiä rom. Republica Moldoveneasc? ...

Transnistria's Frozen Conflict and Russian Strategic Goals. The Transnistrian people are exploited by Russia to further Moscow's geopolitical goals. The multi-ethnic Transnistrian population took matters into their own hands in the late 1980s and early 1990s to preserve their vision of linguistic equality and multiculturalism.

Dopo l'accettazione del cessate il fuoco, la Russia continuò a provvedere militarmente, politicamente ed economicamente a supportare il regime separatista, rendendo possibile la sua sopravvivenza e il suo rafforzamento. Il Generale Aleksandr Lebed, comandante del ROG (nuovo nome della 14ª armata) dal giugno 1992, si comportava come un politico della Transnistria, ed ...

All types of energy storage are needed for a low-carbon future, and each technology has its own best use case. For maximum efficiency and cost-effectiveness, it's important to store energy in the same form in which it will be consumed. That means using electrochemical storage to meet electric loads and thermal energy storage for thermal loads.

Customer-focused and technologically & quality-driven, Ice Cube Cold Storage & Logistics is dedicated to providing the region's most advanced and reliable multifaceted temperature-controlled storage and logistics solutions. With a commitment to outstanding customer service, transparent communication, and unparalleled service execution; our ...

The TSU-M ICE CHILLER® Thermal Storage Unit reduces energy costs by storing cooling while shifting energy usage to off-peak hours. The internal melt process has an easy-to-design closed loop making it ideal for a variety of HVAC applications. Some examples include office buildings, district cooling for urban settings, schools, hospitals ...

Transnistria ice storage

Automatic ice storage; Serve as buffer storage to cover power peaks in ice demand. The ice can be stored for several days and still remain transportable via screw conveyors or blower systems. Transportable ice storage; They perform two functions. First, they store and cool ice in the refrigerated container.
