Goldi Solar is a Gujarat-based solar panel manufacturer. They have achieved a record growth from 10 MW to 500 MW in a mere 11 years in operation. They export their solar panels to 20+ countries with a workforce of 1,500 strength. They have an annual manufacturing capability of 2.5 GW and they are looking to add another 2000 MW by the end of 2023.

What does it mean for a solar panel to have a higher or lower efficiency than another panel? Simply put, solar panel efficiency is a measure of a solar panel's ability to convert incoming sunlight into usable electricity. This is important because higher efficiency panels produce more energy with less space than lower efficiency models.

Panasonic. Best for roofs with tight spaces. Panasonic is most commonly known in the U.S. as a TV and small appliance manufacturer, but the Japanese company is also a global leader in solar panels. In 2021, Panasonic began outsourcing its solar panel manufacturing to third-party companies, but panels with Panasonic's name on them continue to uphold the ...
